Re: MB Docket No. 04-104

Dear Madame Secretary:

Hanover College, a private liberal arts institution located near Madison, Indiana, supports the reservation of Channel 266A at Madison for noncommercial use as proposed in the above referenced proceeding. Hanover College has sought without success to locate a useable frequency in the noncommercial FM band. If Channel 266A is reserved, Hanover College will file an application for a permit for a station to operate on that channel, with plans to operate a station if its application is granted.

Sincerely,

Terry A. Phillips
Vice President for Administration
